Osnaživanje ranjivih skupina kroz mogućnost zapošljavanja u Gradskoj knjižnici Zadar

Sažetak:

Kroz program sufinanciranja / financiranja zapošljavanja u javnom radu koji provodi Hrvatski zavod za zapošljavanje, Gradska knjižnica Zadar omogućava zapošljavanje ranjivih skupina, posebno dugotrajno nezaposlenih osoba s invaliditetom. Ovaj program nastavak je projekta „Uključi se knjigom“, koji je u formi pilot-projekta započeo 2019. godine kada je u Knjižnici kao volonter angažirana osoba s invaliditetom. Rad na Dječjem odjelu, redanje knjiga i slikovnica, slaganje igračaka pokazali su opravdanost uključivanja u rad Gradske knjižnice. Cilj ovog pilot-projekt je osim socijalizacije, uključivanje u svijet rada mladih koji završe srednju školu po prilagođenom programu i u skladu sa svojim mogućnostima, uz adekvatno praćenje i podršku, imaju potencijala sudjelovati u radnim procesima. Ideja je pretočena u projekt koji je proveden tijekom dvije godine (2021. – 2023.). pod nazivom „Uključi se knjigom“. Cilj projekta bio je osnažiti osobe s invaliditetom za socijalno uključivanje kroz kulturne sadržaje te razviti i unaprijediti sustav knjižnice na kotačima namijenjen osobama s invaliditetom, a kroz je nabavljeno novo vozilo biblio kombi koji se odlično uklopio u postojeću mrežu stajališta Bibliobusne službe. Osim nabave biblio-kombija i pružanja knjižničnih usluga, tijekom provedbe projekta održane su i aktivnosti vezane uz unaprjeđenje kvalitete i širenje socijalnih usluga i programa za aktivno socijalno uključivanje osoba s invaliditetom: radionice osnaživanja osoba s invaliditetom, klubovi čitatelja, škola znakovnog jezika, sportske i kreativne radionice.

Ključne riječi: narodna knjižnica, osobe s invaliditetom, socijalizacija, uključivanje, zapošljavanje

Oblik izlaganja: izlaganje

Vulnerable groups and the possibility of employment in the City Library Zadar

Abstract:

Through the program of co-financing / funding of employment in public work implemented by the Croatian Employment Service, the Zadar City Library enables the employment of vulnerable groups, especially long-term unemployed persons with disabilities. This program is a continuation of the "Get involved with a book" project, which started in the form of a pilot project in 2019, when a person with disabilities was hired as a volunteer in the Library. Work at the Children's Department, arranging books and picture books, stacking toys showed the justification of inclusion in the work of the City Library. The goal of this pilot project is, in addition to socialization, the inclusion in the world of work of young people who graduate from high school according to a customized program and, in accordance with their capabilities, with adequate monitoring and support, have the potential to participate in work processes. The idea was translated into a project that was implemented over two years (2021 – 2023). entitled "Get involved with a book". The aim of the project was to empower people with disabilities for social inclusion through cultural content and to develop and improve the system of the library on wheels intended for people with disabilities, and through this a new vehicle, a biblio van, was acquired which perfectly fit into the existing network of Bibliobus service stops. In addition to the acquisition of biblio-vans and the provision of library services, activities related to the improvement of the quality and expansion of social services and programs for the active social inclusion of persons with disabilities were also held during the

implementation of the project: workshops for the empowerment of persons with disabilities, readers' clubs, a sign language school, sports and creative workshops.

Keywords: employment, the inclusion, persons with disabilities, public library, socialization

Presentation format: presentation

Biografija

Doroteja Kamber-Kontić, viša knjižničarka, ravnateljica Gradske knjižnice Zadar od lipnja 2015. godine.
