Generativni AI alati u Clarivate Solutions

Sažetak

Umjetna inteligencija (*artificial intelligence*, AI) transformira istraživanje, poučavanje i učenje. Clarivateov pristup jedinstven je u pružanju pouzdanih generativnih AI rješenja u cijelom portfelju Clarivatea; gen-alati AI nazivaju se Research Assistant – Web of Science Research Assistant, ProQuest Research Assistant, Ebook Central Research Assistant te Primo Research Assistant. Ovi se alati uklapaju u istraživački/akademski tijek rada koji je razvijen u bliskoj suradnji s tim zajednicama i izdavačima.

Clarivate rješenja temeljena na umjetnoj inteligenciji korisnicima pružaju inteligenciju zasnovanu na pouzdanim izvorima i ugrađenu u istraživački tijek rada, čime se smanjuju rizici od dezinformacija, pristranosti i zlouporabe IP-a.

Generative AI Tools in Clarivate Solutions

Abstract

Artificial Intelligence (AI) is transforming research, teaching, and learning. Clarivate's approach is unique in offering reliable generative AI solutions across the entire Clarivate portfolio; gen-AI tools are called Research Assistant – Web of Science Research Assistant, ProQuest Research Assistant, Ebook Central Research Assistant, and Primo Research Assistant. These tools integrate into the research/academic workflow, which has been developed in close collaboration with those communities and publishers. Clarivate's AI-based solutions provide users with intelligence founded on reliable sources and embedded in the research workflow, thereby reducing risks of misinformation, bias, and IP misuse.
